

VS 2 FineLine

SLIM & ELEGANT

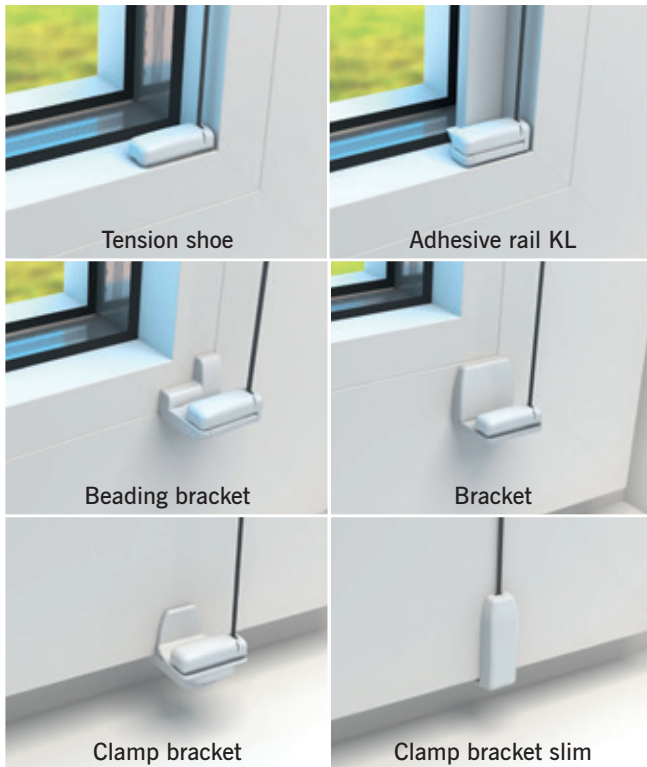

Glazed balconies with folding glass elements are becoming quite popular in new-build flats as they can be used all year round. This is where the elegant model **VS 2 FineLine** can be used.

Its slender rails and slimline design allows it to be assembled on all standard balcony glazing and sliding doors. Fitting is also possible on all rectangular façade windows.

COSIFLOR VS 2 FL

Fitting options:

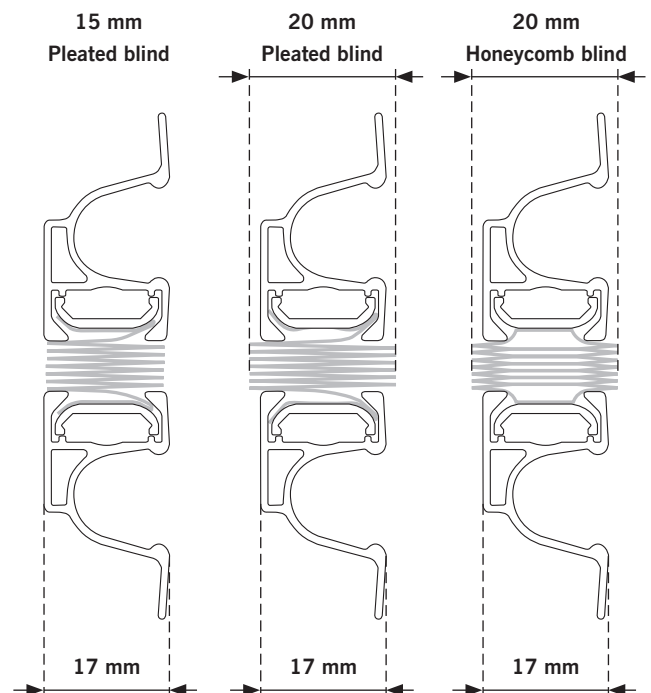

The versatile fitting options mean that the VS 2 FL model can be easily adapted to different window configurations and room designs.

An overview of the details:

- Size range:
(W x H) 100 x (follows) cm or
(W x H) 150 x (follows) cm, max. area (follows) m²
- Fitting: for all common VS 2 fitting options
- Operation: with handle bar or operating rod
- Rail colours: white, silver-grey and black

The benefits of the COSIFLOR VS 2 FL:

- The pleated blind can be easily moved with the ergonomically shaped handle bar.
- The profile depth of 17 mm allows fitting even in narrow gaps.
- Fits in combination with 15 and 20 mm pleated blinds as well as with 20 mm honeycomb blinds:

Processing:

Only the rail clamps for the hoist are required for production.
